

# User Manual

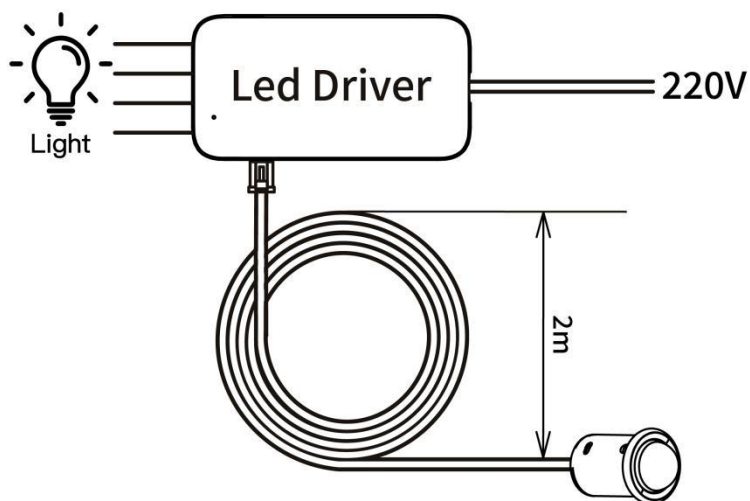

For **Endless Serial** - **PIR** Sensor Switch

Product Range: ED-PM-01

## Dimension Diagram unit: mm

## Schematic Diagram

| Product information       |                                                                                                            |
|---------------------------|------------------------------------------------------------------------------------------------------------|
| 1. Product Category       | <input checked="" type="checkbox"/> wired <input type="checkbox"/> wireless <input type="checkbox"/> other |
| 2. Installation Method    | <input checked="" type="checkbox"/> Hidden installation <input checked="" type="checkbox"/> Surface mount  |
| 3. Mounting Dimension     | Hidden installation:<br>Hole Size Ø12mm, Hole Depth 18mm.                                                  |
| 4. Product Name           | PIR Sensor Switch                                                                                          |
| 5. Cable Length           | 2000mm                                                                                                     |
| 6. Function Description   | When people come, the lights will be turned on. When people is gone, the lights will be turned off.        |
| 7. Control Mode           | Master control                                                                                             |
| 8. Sensing Distance       | 0 - 4 meters                                                                                               |
| 9. Sensing Angle          | 0-120°                                                                                                     |
| 10. Operating Voltage     | 12-24V                                                                                                     |
| 11. Working Current       | Master control : 1.5mA                                                                                     |
| 12. Operating Temperature | -10℃-40℃                                                                                                   |
| 13. Operating Humidity    | 0%-85%RH                                                                                                   |
| 14. Shell Material        | ABS                                                                                                        |
| 15. Warranty Period       | 3 years                                                                                                    |
| 16. Product Dimensions    | 14.7*14.7*22.5mm                                                                                           |
| 17. Accessory             | 1pcs*base +2pcs*screws                                                                                     |
